- Waiter, Waitress

## STUDENTS' INTERNSHIP EXPERIENCE

## Excursion tours

## Culture activities

**Saito Moe Gakushuin University, Interned at Belle Maison Parosand Da Nang Hotel**

*"I was worried about my English skills at first, but when participating in the program, all my friends, Buddies and co workers all tried to communicate in English although it is not our native language. They tried to use other tools like body language and translation applications to communicate. I now feel more confident when talking to other people."*

**Chalida Inthasom (Thailand- Internship program)**

*"The internship has changed my life forever, as I took the change to become a business woman and not a simple school-girl. I woke up every morning and prepared to go to work with my beloved colleagues. I had my chance to become a copywriter, contacted with a lot of Thai communication agencies – a job that I have never tried before. I enjoyed my life and work here"*

## Testimonials

*(What students feel about our internship program)*

**Margaret Herczeg - International Program Coordinator of Deakin University (Study Tour & Internship Program)**

*"The quality of the information that FPT prepares for us and for students for promotion, pre-departure and in-country is excellent. FPT goes above and beyond to help find the right internship experience for the right student and in our field this is gold. The facilities and student accommodation on the FPT University campus are amazing. Students are well supported and cared for. When students do the internship component, they continue to stay on the university campus and are bussed out to their Internship Company and back each day. FPT understands how important it is for us to ensure that our students are safe no matter where they are and helps us work through our rigid occupational health and safety requirements."*
